

# CRISP Professional Development Workshops

Public lecture/keynote  
by **T.P. Ma**

The goal of CRISP professional development workshops is to improve the quality and diversity of STEM education for science teachers in neighboring urban school districts. CRISP offers inquiry-based workshops which utilize CRISP specialized research facilities to emphasize the interdisciplinary nature of materials science and nanotechnology. Workshops have been offered to more than 100 participants to date.

Nanofabrication: MBE  
with **Fred Walker**

Nanotechnology & Photonics  
**Community College Partnership**

Electronic Materials with  
**Sohrab Ismail-Beigi**

**C. Broadbridge, J. Garofano, F. Walker and S. Ismail-Beigi**
